# Introductory note

This introductory note does not form a part of the licence

This licence permits the holder to operate a Household, Commercial and Industrial Waste Transfer Station with waste treatment at the specified location. Wastes can be bulked up for disposal or recovery elsewhere and also can be treated by sorting, separation, screening, baling, shredding, crushing and compaction of waste.

This licence permits the holder to operate a Materials Recycling Facility at the specified location. Source segregated Household and similar waste (including some recyclable mixed municipal waste) will be segregated or treated and sent to other waste facilities for further treatment and recovery. Wastes can be bulked up for disposal or recovery elsewhere and also can be treated by sorting, screening, separation, baling, shredding or compaction.

This licence permits the holder to operate a Waste Electrical and Electronic Equipment (WEEE) authorised treatment facility (ATF) at the specified location. This licence does not permit the acceptance or treatment of WEEE containing ozone-depleting substances. The treatment and storage of WEEE must meet the technical requirements of the WEEE Directive (2002/96/EC as amended by 2003/108/EC). Treatment of WEEE must be carried out using Best Available Treatment, Recovery and Recycling Techniques (BATRRRT). Guidance on BATRRRT is provided in the document "Guidance on Best Available Treatment, Recovery and Recycling Techniques (BATRRRT) and treatment of Waste Electrical and Electronic Equipment (WEEE)" published jointly by the Department for Environment, Food and Rural Affairs, the Welsh Assembly Government and the Scottish Executive.

This licence permits the holder to operate a Non-hazardous Mechanical Biological (aerobic) Treatment (MBT) facility at the specified location. The inputs include municipal wastes that are subjected to biological treatment consisting of aerobic composting or bio-drying, heat treatment, physical treatment including screening, crushing, baling of shredding, and pelletising for the purpose of recovery.

This licence does not permit the burning of any wastes, either in the open, inside buildings or in any form of incinerator.

This licence does not allow any emission into surface waters or groundwater. However:

- Liquids may be discharged into a sewer subject to a consent issued by the sewerage undertaker.
- Liquids may be tankered off-site for disposal or recovery.
- Clean surface water from roofs, or from areas of the site that are not being used in connection with the storage and treatment of waste, may be discharged directly to surface waters, or to groundwater by percolation through the soil via a soakaway.

## Operational requirements specified in regulations

Some aspects of the activity are not controlled by the conditions of this licence, because the controls are specified in the Waste Management Licensing Regulations (WML) Regulations<sup>1</sup>, or other legislation. These include:

- Regulation 4 of the WML Regulations describes the qualifications required by a technically competent person at a waste management facility.
- Section 33 (1)(c) of the Environment Protection Act 1990 prohibits the treating, keeping or disposal of controlled waste in a manner which causes or is likely to cause pollution of the environment or harm to human health.
- Section 85 of the Water Resources Act 1991 under which it is an offence to cause or knowingly permit polluting matter to enter controlled waters, (which include both surface and groundwaters), unless the emission is specifically allowed in a licence.

- The Environmental Protection (Control of Ozone-Depleting Substances) Regulations 2002.
- The Waste Electrical and Electronic Equipment Regulations 2006.
- The Waste Electrical and Electronic Equipment (Waste Management Licensing)(England and Wales) Regulations 2006.
- The Oil Storage Regulations<sup>2</sup> require oil storage tanks to be banded.

## **Public Registers**

The public registers in Environment Agency offices contain information relating to licences including the application and monitoring results. Certain information may be withheld from public registers where it is commercially confidential or contrary to national security. Some information is also available on the Environment Agency's website (see below).

## **Appeals against the conditions in the licence**

The licence holder may appeal to the Secretary of State against any of the conditions imposed by this licence, within 6 months of the date of issue.

## **Licence modifications, transfers and surrender**

The Environment Agency may modify the conditions of this licence in the future. If the licence holder wishes to modify the conditions, transfer the licence to another person or surrender the licence then he must submit an application to the Environment Agency.

## **Other permits at this location**

There may be other environmental permits at this location, issued to different operators/licence holders or to the same operator/licence holder for different activities. There may also be permits issued by another regulator such as the local authority. For information on any other Environment Agency-issued permits please contact the Environment Agency (see below).

This waste management licence does not remove the licence holder or operator from their obligations under any other legislation.

## **Talking to us**

Please quote the licence number if you contact the Environment Agency about this licence.

In the event of an incident the Environment Agency may be contacted using the Incident Hotline telephone number (0800 80 70 60). Calls are free and the hotline operates 24 hours a day, 7 days a week.

For routine enquiries during office hours, the Environment Agency contact telephone number is 08708 506 506. Alternatively you can write to the Environment Agency local office (at the address given in the phone book) or go to the Environment Agency website at [www.environment-agency.gov.uk](http://www.environment-agency.gov.uk) where you can: complete an enquiry form on-line, look up the site under "what's in your backyard", or search for other information.

## Waste Management Licence Number EAWML 100223 Facility Type: Household, Commercial and Industrial Waste Transfer Station with Treatment

The Environment Agency ("the Agency") in exercise of its powers under Section 36 of the Environmental Protection Act 1990, hereby authorises:

**Stonegrave Aggregates Limited** ("the licence holder"),

whose registered office (or principal place of business) is

**Aycliffe Quarry, Aycliffe Village, Darlington, Durham, DL5 6NB**

**Company registration number 995492**

to carry out the keeping and treatment of waste at

**Aycliffe Quarry, Aycliffe Village, Darlington, Durham, DL5 6NB**

the boundary of which is shown on the site plan at schedule 1 to this licence

to the extent authorised by and subject to the conditions of this licence.

# Conditions

## 1 - MANAGEMENT

### 1.1 General management

- 1.1.1 The activities shall be managed and operated:
- (a) in accordance with a management system, which identifies and minimises risks of pollution, including those arising from operations, maintenance, accidents, incidents and non-conformances and those drawn to the attention of the licence holder as a result of complaints; and
  - (b) by sufficient persons who are competent in respect of the responsibilities to be undertaken by them in connection with the operation of the activities.
- 1.1.2 Records demonstrating compliance with condition 1.1.1 shall be maintained.
- 1.1.3 Any persons having duties that are or may be affected by the matters set out in this licence shall have convenient access to a copy of it kept at or near the place where those duties are carried out.

### 1.2 Accident management plan

- 1.2.1 The licence holder shall:
- (a) maintain and implement an accident management plan;
  - (b) review and record at least every 4 years or as soon as practicable after an accident, (whichever is the earlier) whether changes to the plan should be made;
  - (c) make any appropriate changes to the plan identified by a review.

### 1.3 Site security

- 1.3.1 Site security measures shall prevent unauthorised access to the site, as far as practicable.

## 2 – OPERATIONS

### 2.1 Licensed activities

- 2.1.1 The licence holder is authorised to carry out the activities specified in schedule 2, table 2.1 ("the activities").
- 2.1.2 The storage (including temporary storage) and treatment of WEEE shall be carried out in accordance with the technical requirements of Annex III of the WEEE Directive.
- 2.1.3 WEEE shall be treated using best available treatment, recovery and recycling techniques (BATRRT).
- 2.1.4 As a minimum, the substances, preparations and components specified in schedule shall be removed from any separately collected WEEE.
- 2.1.5 All fluids contained within any WEEE to be treated at the site shall be removed prior to treatment taking place.

- 2.1.6 Separately collected components of WEEE listed in schedule 2, table 2.2 shall be treated in accordance with the methods specified in that table.
- 2.1.7 Equipment shall be provided to record the weight of untreated WEEE accepted at, and components and materials leaving, the facility.

## **2.2 Waste acceptance**

- 2.2.1 Wastes shall only be accepted if:
- (a) it is of a type and quantity listed in schedule 2, table 2.3; and
  - (b) except for household waste accepted from householders it conforms to the description in the documentation supplied by the producer and holder.
- 2.2.2 Records shall be maintained of all waste accepted onto the site.

# **3 – EMISSIONS AND MONITORING**

## **3.1 Emissions to air, water, or land**

- 3.1.1 There shall be no point source emissions to air, water or land, except from the sources and emission points listed in schedule 3, table 3.1.
- 3.1.2 Air within buildings where waste is being stored, treated or composted shall be extracted via an exhaust system and treated by way of filters or other suitable means to remove dust, odour and bio-aerosols prior to emission.

## **3.2 Transfers off-site**

- 3.2.1 Records of all the wastes sent off site from the activities, for either disposal or recovery shall be maintained.

## **3.3 Fugitive emissions of substances**

- 3.3.1 Fugitive emissions of substances (excluding odour and noise) shall not cause pollution. The licence holder shall not be taken to have breached this condition if appropriate measures have been taken to prevent or where that is not practicable, to minimise, those emissions.
- 3.3.2 Litter or mud arising from the activities shall not cause pollution. The licence holder shall not be taken to have breached this condition if appropriate measures have been taken to prevent or where that is not practicable, to minimise, the litter and mud.
- 3.3.3 Litter and mud arising from the activities shall be cleared from affected areas outside the site as soon as practicable.
- 3.3.4 All liquid wastes, whose emission to water or land could cause pollution, shall be provided with secondary containment, unless the licence holder has used other appropriate measures to prevent or where that is not practicable, to minimise, leakage and spillage from the primary container.

## **3.4 Odour**

- 3.4.1 Emissions from the activities shall be free from odour at levels likely to cause annoyance

outside the site, as perceived by an authorised officer of the Agency, unless the licence holder has used appropriate measures to prevent or where that is not practicable, to minimise, the odour.

### **3.5 Noise**

- 3.5.1 Emissions from the activities shall be free from noise at levels likely to cause annoyance outside the site, as perceived by an authorised officer of the Agency, unless the licence holder has used appropriate measures to prevent or where that is not practicable, to minimise, the noise.

### **3.6 Pests**

- 3.6.1 Scavenging animals, scavenging birds and other pests shall not cause pollution. The licence holder shall not be taken to have breached this condition if appropriate measures have been taken to prevent or where that is not practicable, to minimise, such pollution.

### **3.7 Monitoring**

- 3.7.1 The licence holder shall, unless otherwise agreed in writing by the Agency, undertake monitoring for the parameters, at the locations and at not less than the frequencies specified in the following schedules and tables to this licence.
- (a) Schedule 3, table 3.2.
- 3.7.2 The licence holder shall maintain records of all monitoring required by this permit including records of the taking and analysis of samples, instrument measurements (periodic and continual), calibrations, examinations, tests and surveys and any assessment or evaluation made on the basis of such data.

## **4 – INFORMATION**

### **4.1 Records**

- 4.2.1 All records required to be made by this licence shall:
- (a) be legible;
- (b) be made as soon as reasonably practicable;
- (c) if amended, be amended in such a way that the original and any subsequent amendments remain legible, or are capable of retrieval; and
- (d) be retained, unless otherwise agreed by the Agency, for at least 6 years from the date when the records were made, or in the case of the following records until licence surrender:
- (i) off-site environmental and health effects; and
- (ii) the condition of land and groundwater.
- 4.2.2 Any records required to be made by this licence shall be supplied to the Agency within 14 days, where the records have been requested in writing by the Agency.

### **4.2 Reporting**

- 4.2.3 All reports and notifications required by the licence shall be sent to the Agency using the contact details supplied in writing by the Agency.
- 4.2.4 A summary report of the waste types and quantities accepted and removed from the site shall be made for each quarter. It shall be submitted to the Agency within one month of the end of

the quarter, and shall be in the format required by the Agency.

## 4.3 Notifications

- 4.3.1 The Agency shall be notified without delay following the detection of:
- (a) any malfunction, breakdown or failure of equipment or techniques, accident or fugitive emission which has caused, is causing or may cause significant pollution;
  - (b) the breach of a limit specified in this licence; and
  - (c) any significant adverse environmental and health effects.
- 4.3.2 Written confirmation of actual or potential pollution incidents and breaches of emission limits shall be submitted within 24 hours.
- 4.3.3 Prior written notification shall be given to the Agency of the following events and in the specified timescales:
- (a) as soon as practicable prior to the permanent cessation of any of the activities;
  - (b) cessation of operation of all or part of the activities for a period likely to exceed 3 months;
  - (c) resumption of the operation of all or part of the activities after a cessation notified under (b) above
- 4.3.4 Where the Agency has requested in writing that it shall be notified when the licence holder is to undertake monitoring and/or spot sampling, the licence holder shall inform the Agency when the relevant monitoring is to take place. The licence holder shall provide this information to the Agency at least 14 days before the date the monitoring is to be undertaken.
- 4.3.5 The Agency shall be notified within 7 days of any changes in technically competent management and the name of any incoming person together with evidence that such person has the required technical competence.
- 4.3.6 The Agency shall be notified within 14 days of the licence holder and/or any relevant person being convicted of a relevant offence, (unless such information has already been notified to the Agency), with details of the nature of the offence, the place and date of conviction, and the sentence imposed.
- 4.3.7 The Agency shall be notified within 14 days of the licence holder and/or any relevant person lodging an appeal against a conviction for any relevant offence and of the outcome when the appeal is decided.
- 4.3.8 The Agency shall be notified within 14 days of the occurrence of the following matters except where such disclosure is prohibited by Stock Exchange rules:
- a) Where the licence holder is a registered company:
    - any change in the licence holder's trading name, registered name or registered office address
    - any change to particulars of the licence holder's ultimate holding company (including details of an ultimate holding company where a licence holder has become a subsidiary);
    - any steps taken with a view to the licence holder going into administration, entering into a company voluntary arrangement or being wound up; and
    - if the licence holder is not the operator: any change in the operators trading name; address; registered name or registered office address.
  - b) Where the licence holder is a corporate body other than a registered company:
    - any change in the licence holder's name or address;
    - any steps taken with a view to the dissolution of the licence holder; and
    - if the licence holder is not the operator: any change in the operators trading name; address; registered name or registered office address.
  - c) In any other case:

- the death of any of the named licence holders (where the licence holder consists of more than one named individual);
- any steps taken with a view to the licence holder, or any one of them, going into bankruptcy, entering into a composition or arrangement with creditors, or, in the case of them being in a partnership, dissolving the partnership; and
- if the licence holder is not the operator: any change in the operators trading name; address; registered name or registered office address.

4.3.9 The Agency shall be notified at least 7 days in advance of the commencement of any of the activities.

## **4.4 Interpretation**

4.4.1 In this licence the expressions listed in schedule 4 shall have the meaning given in that schedule.

**Table 2.3 Licensed waste types and quantities****Maximum Quantities**

The quantity of wastes listed below, accepted at the site shall be less than 160,000 tonnes a year.

**Exclusions for all activities**

Notwithstanding the specification of waste types below, wastes shall not be accepted at the site which have any of the following characteristics:

Consisting solely or mainly of dusts, powders or loose fibres

**Exclusions for MBT**

Notwithstanding the specification of waste types below, wastes shall not be accepted at the site which have any of the following characteristics:

Consisting solely or mainly of dusts, powders or loose fibres;

Sludges (except for gully and street cleaning wastes);

Liquids;

Drummed wastes;

Hazardous waste;

Animal By-Products Regulations contaminated material - unless the plant has been approved by the competent authority, which in England is the State Veterinary Service and in Wales is the National Assembly for Wales.

## Schedule 4 – Interpretation

*“accident”* means an accident that may result in pollution.

*“authorised officer”* means any person authorised by the Agency under section 108(1) of The Environment Act 1995 to exercise, in accordance with the terms of any such authorisation, any power specified in Section 108(4) of that Act.

*“building”* means a construction that has the objective of providing sheltering cover and minimising emissions of noise, particulate matter, odour and litter.

*“composting”*, means the biological decomposition of organic materials, under conditions that are predominantly aerobic and that allow the development of thermophilic temperatures as a result of biologically produced heat.

*“emissions to land”*, include emissions to groundwater.

*“fugitive emission”* means an emission to air, water or land from the activities which is not controlled by an emission limit.

---

*"groundwater"* means all water, which is below the surface of the ground in the saturation zone and in direct contact with the ground or subsoil.

*"impermeable surface"* means a surface or pavement constructed and maintained to a standard sufficient to prevent the transmission of liquids beyond the pavement surface, and should be read in conjunction with the term "sealed drainage system" (below).

*"mixing of hazardous waste"* means mixing hazardous waste as defined by Regulation 18 of the Hazardous Waste (England and Wales) Regulations 2005.

*"notify/notified without delay"* means that a telephone call can be used, whereas all other reports and notifications must be supplied in writing, either electronically or on paper

*"pollution"* includes pollution of the environment, harm to human health and serious detriment to the amenities of the locality, resulting from the licensed activities.

*"quarter"* means a calendar year quarter commencing on 1 January, 1 April, 1 July or 1 October.

*"relevant person"* and *"relevant offence"* shall have the meaning given to them in the Environmental Protection Act 1990

*"sealed drainage system"* in relation to an impermeable surface, means a drainage system with impermeable components which does not leak and which will ensure that:

- (a) no liquid will run off the surface otherwise than via the system;
- (b) except where they may lawfully be discharged, all liquids entering the system are collected in a sealed sump.

*"sewer"* means sewer within the meaning of section 219(1) of the Water Industry Act 1991.

*"Sharps"* are items that could cause cuts or puncture wounds. They include needles, hypodermic needles, scalpels and other blades, knives, infusion sets, saws, broken glass, and nails.

*"technically competent management"* and *"technical competence"* shall be as prescribed under Section 74 of the Environmental Protection Act 1990.

*"waste code"* means the code specified in The List of Wastes (England) Regulations 2005 (SI 2005 No. 895) as amended, or The List of Wastes (Wales) Regulations 2005 (SI 2005 No.1820) (W.148) as amended. Codes marked with an \* are hazardous waste, as defined in those regulations. Licence conditions apply to those wastes listed with a six-digit code.

*"Waste Management Licensing Regulations"*, means The Waste Management Licensing Regulations 1994 (SI1994 No. 1056) (as amended).

*"year"* means calendar year commencing on 1<sup>st</sup> January.

## **Schedule 5 – Substances, preparations and components to be removed from separately collected WEEE**

- Capacitors containing Polychlorinated biphenyls (PCB)
- Mercury-containing components, such as switches or backlighting lamps
- Batteries
- Printed circuit boards of mobile phones generally, and of other devices if the surface of the printed circuit board is greater than 10 square centimetres
- Toner cartridges, liquid and pasty, as well as colour toner
- Plastic containing brominated flame retardants
- Asbestos waste and components which contain asbestos
- Cathode ray tubes
- Chlorofluorocarbons (CFC), hydrochlorofluorocarbons (HCFC), hydrofluorocarbons (HFC), or hydrocarbons (HC)
- Gas discharge lamps
- Liquid crystal displays (together with their casing where appropriate) of a surface greater than 100 square centimetres and all those back-lighted with gas discharge lamps
- External electric cables
- Components containing refractory ceramic fibres
- Components containing radioactive substances with the exception of components that are below the exemption thresholds set in Article 3 of and the Annex I to Council Directive 96/29/Euratom of 13 May 1996 laying down basic safety standards for the protection of the health of workers and the general public against the dangers arising from ionising radiation
- Electrolytic capacitors containing “substances of concern” (height > 25mm, diameter > 25 mm or proportionately similar volume)
